PERSONAL DETAILS

- Total Experience 2 Years 0 Month
- Date of Birth May 23, 1999
- Gender Male
- Marital Status Single/Unmarried

SKILLS

- Risk Management
- Coding And Development
- Project Management
- Techno Functional
- Leadership
- Team Management
- Creativity
- Problem Solving

TECHNICAL SKILLS

- Core Java
- Spring
- Spring Boot
- Spring MVC
- Data Structures And Algorithms
- Servlets
- JSP
- Hibernate
- HTML
- CSS
- SQL
- Postgresql
- Maven
- JDBC

LANGUAGES KNOWN

- English
- Hindi

PROFILE SUMMARY

- Dedicated and motivated Software Developer with **2 years** of experience in **backend development**.
- Seeking a challenging position to leverage my technical expertise and contribute to innovative software solutions.???
- Worked on multiple technologies like **Java, Spring, Springboot, Hibernate** and MongoDB
- Hands-on experience in Core Java, Web Services using RESTful Web Services with an exposure to J2EE Design Patterns, OOAD.
- Understanding of Software Development Lifecycle (SDLC) right from requirement analysis until final deliverables.

EDUCATION HISTORY

Post Graduation

Course	MCA(Computers)
College	Dr. A.P.J. Abdul Kalam Technical
University	
Year of Passing	2022
Grade	7.7/10

WORK EXPERIENCE

Jul 2022 to Present

Associate Software Engineer at Dataman Computer Systems (P) LTD.

- Strong working knowledge in Restful **webservices** and microservices.
- Recognizing issues & risks in a timely manner; developing/implementing appropriate mitigation and contingency plans
- Implemented **REST services** using Java in multiple architectures.
- Collaborating with the Development Manager to define / improve development methodology and processes
- Experience with implementing Webhooks and consuming **3rd party API**.
- Assisting in determining operational feasibility through analysis, problem definition, requirement analysis, and proposing solutions
- Following the **project lifecycle** methodology defined under the process framework; ensuring that customer

<https://leetcode.com/rohitshukla001>

deadlines were met within project budgets

- Worked extensively with Object Relation Mapping(**ORM**)

INTERNSHIPS

Dataman Computer Systems (P) LTD., 5 Months

- Implemented APIs for different services in Java.
- Implemented **authentication** system as microservice.
- Manages all dependencies of system so that services can be **testable** and scalable

PROJECTS

BANKING APPLICATION, 18 Months

This is an Advance GUI based Banking Enterprise Application combo of three projects. whose are communicating to each-other with **Restful APIs**. it support funds deposits, transfer and funds. distribution for self and child accounts. it has features like Payment voucher, Agency Limit allocation, Bank sweep and all activities are displaying on dashboards.

- Written **clean**, well-documented and **scalable** code in java
- Build scalable and reliable micro-service based applications
- Created backend design and Implemented **microservices** architecture for banking application
- Optimized all the resources and integreted all services to work smoothly.
- Proven ability to collaborate with cross-functional teams and deliver high-quality code on time and within budget.
- I design, build and maintain efficient, **reusable**, and **reliable** java code.

Employee Management system, 5 Months

This EMP System helps employees to give their best efforts every day to achieve the goals of organization. This makes easier to store and access the data. You can manage activities in an easier and quicker way with it's CRUD Feature. I have used Java, Spring Boot, thymeleaf, JPA, Bootstrap and PostgreSQL Database technologies to developed this amazing project.
